Prepare for Spring Weather Advice

Spring weather can be unpredictable. When severe weather hits unexpectedly, the risk of injury and weather-related death increases, so planning makes sense. Prepare for storms, floods, and tornadoes as if you know in advance they are coming, because in the spring, they very likely will.

Spring is the time of year when many things change—including the weather. Temperatures can swing back and forth between balmy and frigid. Sunny days may be followed by a week of stormy weather. Sometimes extreme weather changes can occur even within the same day. Mark Twain once said, “In the spring I have counted one hundred and thirty-six kinds of weather inside of four and twenty hours.”

Thunderstorms cause most of the severe spring weather. They can bring lightning, tornadoes, and flooding. Whenever warm, moist air collides with cool, dry air, thunderstorms can occur. For much of the world, this happens in the spring and summer months.

Advance planning for thunderstorms, lightning, tornadoes, and floods requires specific safety precautions. You can follow many of the same steps for all extreme weather events. Keep an emergency kit on hand. Some items to include are:

- A battery-operated flashlight, a battery-operated NOAA Weather Radio, and extra batteries for both
- An emergency evacuation or shelter plan, including a map of your home and, for every type of severe weather emergency, routes to safety from each room
- A list of important personal information, that includes telephone numbers of neighbors, family, and friends, insurance and property information, telephone numbers of utility companies, and medical information

“Your success and happiness lies in you. Resolve to keep happy, and your joy and you shall form an invincible host against difficulties.”

Helen Keller

The REACH Resource Centers on Independent Living are members of the Texas Association of Centers for Independent Living, the National Council on Independent Living, and the Coalition of Texans with Disabilities.
Texas opens COVID-19 vaccine to everyone 16 and older on March 29, 2021.

The Texas Department of State Health Services is asking providers to prioritize appointments for people 80 and older, and to prioritize walk-ins from anyone in that age group who show up without an appointment.

Everyone age 16 and older, regardless of occupation or health status, will be eligible to get the COVID-19 vaccine in Texas starting on 3/29, state health officials announced.

It is recommended that you call your local health department to find out where the nearest vaccination hub is located.

Email Julie Espinoza at jespinoza@reachcils.org with your request to be added to her email list of upcoming activities and special events. At this time, a majority of the activities and special events the center offers are held via teleconference or the Google Meet virtual platform.

REACH of Plano has manual wheelchairs for loan and other donated medical equipment and supplies such as bedside commodes, shower benches, walkers, canes & adult diapers to give away! lyft, Inc. Donation

Thank you to lyft, Inc. for donating $1,000 in credits to consumers in need of transportation to and from COVID-19 vaccination centers and clinics. This donation will help REACH consumers across the metroplex get the vaccines they need as we continue to fight against the coronavirus. All rides are accessible to the community by using a smartphone to download the lyft app. (FYI - lyft, Inc. does not capitalize the first letter in the company’s name, a lower case letter “l” is used instead of a capital letter “L”.)

Thank You to Our Student Intern Lynnie

Lynnie, who has been volunteering at the REACH of Plano center for several months, has provided our consumers with many insightful workshops. Topics included public health concerns and using coping skills to lessened stress. We look forward to continuing our work with Lynnie in the coming weeks.
Important to Know
The Moderna and Pfizer COVID-19 vaccines both require two doses. It’s best if you get your second dose from the same brand as your first dose. For example, if you got a Moderna first dose vaccine, your second dose vaccine must also be a Moderna dose vaccine.

The timing between your first and second doses depend upon which vaccine you received:
- **Moderna**: 4 to 6 weeks after your first dose
- **Pfizer**: 3 to 6 weeks after your first dose

Summer Youth Camps Hosted by Each REACH Resource Center on Independent Living
The Summer Youth Camp sessions for youth with disabilities are quickly approaching, so make sure to contact your local REACH center to find out about the dates, times, agenda topics, activities, etc.

REACH receives a majority of its funding to operate the centers from grants from HHS and HHSC in Fiscal Year 2021. REACH of Denton receives 100% of its funding ($250,112) from HHS; REACH of Fort Worth receives 100% of its funding ($262,280) from HHS; REACH of Dallas receives 100% of its funding ($482,447) from HHS; and REACH of Plano receives 100% of its funding ($262,279) from HHSC.

JUST A REMINDER

REACH generates additional funds to enhance its mission by participating in the Tom Thumb, Kroger and Amazon Smile donor programs. Each company allows its customers to register so donations go to a nonprofit organization that the customer supports. Then every time a purchase is made by the customer, the nonprofit receives credit for the total amount of the purchase. The Tom Thumb, Kroger and Amazon companies then periodically issue a donation check or make an automatic bank deposit to REACH for a percentage of the total of our supporters’ purchases.

If you and/or your family and friends shop at or online at any or all of these companies and would like to make sure that REACH is able to continue providing services to North Texans with disabilities, please call any of the REACH offices for more information on how to enroll in these no cost to you donor programs. Thank you.
